
(a)
Incidence does not rise inboard
15% chord upstream
30% chord upstream
50% chord upstream
$\overline{\alpha}_B - \overline{\alpha}_I$ (deg)
Span fraction

(b)
Relative inflow changes
Change in mean relative speed squared (%)
Span fraction

(c)
Mean pressure-jump response
Moving
Static
$\overline{\Delta J}_{\text{section}}$
Span fraction
